

AKSHAT GUPTA

M.No.: (+91) 7290888525 | Email: gemini.akshatgupta@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

Computer Science undergraduate with a strong foundation in data analytics, AI automation, and product-oriented problem solving, experienced in turning business requirements into data-driven dashboards, insights, and scalable automation solutions.

EDUCATION

- **B.Tech [Computer Science] | Vellore Institute of Technology**
CGPA: 9.25 (up to 6th semester) August, 2023 – July, 2027
- **Pre-University | Birla Vidya Niketan School, Delhi**
CBSE: 95.2% April, 2022 – May, 2023
- **Secondary School | Birla Vidya Niketan School, Delhi**
CBSE: 99.6% April, 2020 – May, 2021

SKILLS

- **AI Automation & Machine Learning:** N8n | Supervised & Unsupervised Learning | Anomaly Detection | NLP | Feature Engineering | Model Evaluation | PyTorch (basic) | LangChain | LangGraph
- **Data Science & Analytics:** Python | Pandas | NumPy | Matplotlib | Seaborn | Scikit-learn | SQL | Excel | Power BI
- **Programming:** Python | C | C++ | Java | TypeScript | JavaScript | HTML | CSS
- **Databases:** SQL | MySQL | MongoDB
- **Tools & Platforms:** Git | GitHub | Jupyter Notebook | VS Code
- **Core CS:** Data Structures & Algorithms | OOP | Problem Solving | Debugging | Prompt Engineering | API Integration
- **Frameworks & Libraries:** React.js | Next.js | React Native | Express.js | Node.js | GSAP | Framer Motion | EJS
- **Soft Skills:** Leadership | Team Collaboration | Public Speaking | Event Management | Marketing | Adaptability

WORK EXPERIENCE

Nexgen Tech Solutions | Frontend Intern [Certificate](#) May, 2025 – June, 2025

- Built a data-driven book discovery application consuming Google Books API; optimized client-side data storage with 100% persistence.
- Improved application state efficiency by implementing Redux Toolkit, reducing redundant state logic by ~40%.
- Enhanced UI responsiveness and performance through optimized component design and async data handling, boosting responsiveness by ~50%.
- Collaborated in an agile team environment, following industry-standard Git workflows.

Oil and Natural Gas Corporation (ONGC) | SAP Development SDE Intern [Certificate](#) May, 2026 – June, 2026

- Engineered a full-stack SAP business application using ABAP, Module Pool Programming, and SE11 Data Dictionary, designing a normalized relational database (8+ entities) with Role-Based Access Control (RBAC) across Sales, Inventory, Production, and Dispatch modules.
- Developed backend logic with Open SQL, Internal Tables, and modern ABAP syntax, building Object-Oriented ALV Reports and automating PDF generation via Adobe Forms/Smart Forms, cutting manual reporting effort by ~40%.
- Built a responsive SAP Fiori/SAPUI5 application using MVC architecture, JSON models, and two-way data binding, deployed via SAP Business Application Studio on SAP HANA Cloud, improving data retrieval speed by ~30%.
- Automated multi-level approval workflows (leave request system with conditional routing) using SAP Build Process Automation, reducing manual approval steps by ~50%.
- Gathered and consolidated requirements from different departments and teams to design and deliver a complete interactive dashboard visualizing end-to-end order data flow for Multi-Department Order Processing Pipeline.

WORKSHOPS

Summer School on AI: Deep Dive into Deep Learning [Certificate](#)

Completed a 6-week Summer School on AI & Deep Learning (Delhi Technological University (DTU), 2024), gaining hands-on experience with PyTorch, CNNs, RNNs/LSTMs, Transformers, and Generative AI (GPT-2, Autoencoders, Diffusion Models). Worked on projects in image classification, NLP, fake news detection, image captioning, and vision-language models (CLIP), applying techniques like backpropagation, regularization, and K-fold validation to improve model accuracy and efficiency.

PROJECTS

TallyXL – Tally ERP → Excel Data Connector [GitHub](#)

Overview: Built and iteratively hardened a Tally-to-Excel data connector automating ledger reporting for Indian SMEs and accountants, evolving from a Power Query prototype into a licensable product, heavily reducing manual effort.

Features: Automated XML/TDL request generation with custom CSV parsing and locale-aware numeric cleaning (Indian number formatting, negative-value handling) · Built a 7-step self-serve diagnostic tool enabling non-technical users to debug failed refreshes remotely without screen-share access · Designed tiered pricing, licensing, and go-to-market plan for commercial release.

Tech Stack: VBA · Power Query (M) · XML/TDL · Excel · FastAPI (planned) · Razorpay

AI Automation & Workflow Suite – Intelligent Multi-Agent n8n Platform

Overview: Built a collection of AI-powered automation workflows in n8n for conversational assistants, deep research, academic analytics, knowledge retrieval, graph database querying, and Google Workspace productivity automation; one workflow is in active production use by 10+ users.

Features: Natural language query processing, LLM-based response generation, Neo4j Cypher query creation, TF-IDF and cosine similarity retrieval, web scraping from websites/PDFs/Wikipedia, Excel and JSON data processing, chart generation, webhook integrations, memory support, Google Workspace automation, and multi-agent orchestration.

Tech Stack: n8n · Google Gemini Chat Model · Ollama · Neo4j · Cypher Query Language · TF-IDF · Cosine Similarity · JavaScript · Webhooks · JSON Processing · Excel/XLSX Processing · QuickChart API · HTML Parsing · PDF Extraction Google Workspace APIs · AI Agents · Prompt Engineering · LLM Chains

ThreatDetection – Insider Threat Analysis System [GitHub](#)

Overview: Built a behavior-based insider threat detector using the CERT Insider Threat Dataset to flag anomalies like off-hour logins, abnormal file access, and non-HTTPS web activity.

Features & Implementation: Engineered time and role-based features, applied custom anomaly rules, and visualized behavioral trends with Matplotlib and Seaborn.

Tech Stack: Python · Pandas · NumPy · Scikit-learn · Matplotlib · Seaborn · Jupyter Notebook

Review-Analysis-AI & Summarise-AI [GitHub](#) [GitHub](#)

Python-based NLP applications leveraging LangChain and Hugging Face Transformers for intelligent text analysis and summarization.

Review-Analysis-AI: Delivers sentiment analysis, ABSA, and review summarization to extract actionable customer insights with multi-review aggregation, dashboard, and API integration.

Summarise-AI: Creates **age-tailored summaries** via **BART** and **LangChain**, enabling accessible, audience-specific content with **multi-text processing** and **CLI/web support**.

Tech Stack: Python · LangChain · Hugging Face · Facebook BART · Torch · NLTK · SentencePiece · Tiktoken · Modular NLP Architecture

Navora AI – Smart Travel Safety & Trip Companion [GitHub](#)

Overview: Developed for Smart India Hackathon 2025, Navora AI is an AI-powered travel assistant that creates personalized itineraries linked to a govt-verified Trip ID for safe, adaptive, and smart travel.

Features: AI itinerary generation, real-time tracking, SOS alerts, geo-fencing, offline & multi-language support, and secure data handling.

Tech Stack: AI · Geo-fencing · Blockchain · GPS · Encryption · Mobile App · API Integration · RAG

Impact: Boosts traveler safety, enables real-time response, and strengthens govt collaboration in tourism security.

SplitRight – AI-Powered Expense Tracking & Bill-Splitting App [GitHub](#)

Overview: Designed and built a local-first React Native app that uses AI to extract line items from scanned receipts and automatically computes fair splits and settlements among groups.

Features: Gemini/Claude-powered receipt-to-JSON extraction · Editable review flow with low-confidence highlighting and live totals · Balance dashboard with per-person breakdowns and monthly spend analytics · Greedy debt-consolidation algorithm for minimum settlement transfers · Offline-first architecture with queued sync and integer-based (paise) monetary precision.

Tech Stack: React Native (Expo) · TypeScript · SQLite · Drizzle ORM · Zustand · Gemini API · n8n · Resend API

CERTIFICATES: [Link](#)

Google Data Analytics: Foundations – Data, Data, Everywhere: Google | Coursera | 2025

[Certificate](#)

Microsoft Office Specialist: Office Excel-2016: Excel Proficiency | Microsoft | 2019

[Certificate](#) [Certificate](#)

EXTRA CURRICULAR

- Contributed to the **Publicity & Marketing Team** of Riviera'25 (VIT Fest), driving **1,000+ external registrations** through strategic outreach and promotional campaigns.
- Appointed **Deputy Head Boy** of the Student Council, Birla Vidya Niketan (2021–22), demonstrating leadership, event coordination, and decision-making skills. [Certificate](#)
